

Delivery Type

- Instructor-Led Training (ILT)
- Virtual Instructor-Led Training (VILT)

Course Length

- 3 days

Course Availability

- Employees
- Customers
- Partners

Suggested Audience

- Administration

Required Knowledge and Skills

- Experienced knowledge of storage arrays administration

Prerequisite Courses

- TXI3684: Managing Hitachi Ops Center Analyzer

Supplemental Courses

- TSI2929: Managing Hitachi Ops Center Administrator

1050CI — Storage Performance Analysis with Hitachi Ops Center Analyzer

Course Description

This course provides the necessary knowledge to carry out performance analysis on Hitachi storage arrays using Hitachi Ops Center Analyzer and interpret the results to determine actions to maintain performance targets.

Additionally, the hands-on lab activities enable you to gain practical experience and knowledge on storage performance analysis with Hitachi Ops Center Analyzer.

This course prepares you for the following Hitachi Vantara Qualified Professional qualification test:

- Hitachi Vantara Qualified Professional - Storage Performance Analysis with Ops Center Analyzer (HQT-6701)

Depending on the location and course delivery format, this closed-book, proctored qualification test may be offered and administered by the instructor at the conclusion of this course, using the [Kryterion Webassessor system](#). It is also available online (online proctored) and at Kryterion testing centers (onsite proctored).

Course Objectives

When you complete this course, you should be able to:

- Demonstrate how to carry out performance analysis on Hitachi storage arrays
- Explain the performance analysis concepts
- Investigate the available performance technologies for Hitachi Virtual Storage Platform family
- Explore the use of performance metrics with respect to Hitachi storage arrays
- Determine the actions to be taken from the construed information in the performance reports
- Use Hitachi Global Link Manager for path management
- Identify and list the features of other Command Suite v7.x products

Course Outline

Content Modules

- Performance Fundamentals
- Performance Metrics
- Metrics Interpretation
- Evolution And Comparison of Performance Technologies
- Performance Tuning
- Performance Analysis Methodology

Learning Activities — Labs

- Describe I/O Profile
- Characterize I/O Activity
- Watch Out for Response Time
- Achieve Performance Objectives
- A Solution to Performance Issue
- A Small Change, A Big Impact
- The Noisy Neighbor
