

COURSE DESCRIPTION

Hitachi Ops Center Fundamentals with Hands-on Labs 1174CI

Who Should Attend

- Storage Administrator

Availability

- Customer
- Partner
- Employee

Level

- Professional

Required Knowledge and Skills

- Experience working with servers (Windows or UNIX) and databases
- Basic knowledge of SAN and block-oriented storage
- Experience using VMware Hypervisor and vCenter

Prerequisite Courses

- Quick Start Training for Hitachi Ops Center Suite – 1174CC (online)

Supplemental Courses

- Managing Hitachi Ops Center Administrator – TSI2929
- Managing Hitachi Ops Center Protector – TSI2995
- Managing Hitachi Ops Center Analyzer – TXI3684

Delivery Type

- Instructor-led (ILT)
- Virtual Instructor-led Training (vILT)

Course Length

- 1 day

Quickly begin managing your arrays with Ops Center Suite

This ILT/vILT course provides a review and consolidation of the self-paced course **Quick Start Training for Hitachi Ops Center Suite – 1174CC** with the support of dedicated Hitachi instructors.

You will learn how to quickly implement the software in your data center and familiarize yourself with the basic capabilities of the main Ops Center products.

This course will be focused on lab activities for essential concepts that a storage administrator needs to be confident in to provision storage systems with Ops Center Administrator, protect data with Ops Center Protector, and analyze performance with Ops Center Analyzer and Detail View. In this course, you will be reviewing the content and doing hands-on lab work to install and upgrade Hitachi Ops Center Server and Client.

Course Objectives

When you complete this course, you should be able to:

- Learn how to install and upgrade Ops Center Server and Client
- Explore Storage Systems and Servers
- Perform basic configuration of the main components in Protector
- Orchestrate and protect your data with in-system ShadowImage replication
- Configure Analyzer or Detail View and Probe for storage

Course Outline

- Installation and Upgrade
- Ops Center Administrator
- Ops Center Protector
- Ops Center Analyzer

Learning Labs

- Install Ops Center Server with Preconfigured Media
- Upgrade of Ops Center Server with Express Installer
- Installation of Ops Center Client with Express Installer
- Hitachi Ops Center Administrator
- Hitachi Ops Center Protector
- Hitachi Ops Center Analyzer and Probe – Initial Setup
- Hitachi Ops Center Analyzer
