TSI3456 — Designing Workflows for Hitachi Content Intelligence

Course Description

This course provides an overview of Hitachi Content Intelligence Workflows. This overview includes the steps necessary to set up workflows for different use cases.

After reviewing concepts and features, you will get hands-on practice exploring the Hitachi Content Intelligence management console, creating Data Connections, Pipeline, Index Collections and creating Workflows.

Course Objectives

When you complete this course, you should be able to:

- Outline the Hitachi Content platform portfolio strategy
- Discuss why we need Hitachi Content Intelligence
- Define key terms and concepts of Hitachi Content Intelligence
- Describe Data Connections
- Explain the different types of Data Connections
- Add connections to the Workflows
- Define and explain:
 - Pipelines, Conditional Statements, Predefined Pipelines, Pipeline Execution Modes and Built-in Stages
 - Indexes and Index Schemas
 - Query Settings
 - Workflows, Workflow Tasks and Workflow Actions
 - Content Classes and Pattern Matching

Course Outline

Content Modules

- Hitachi Content Intelligence Overview
- Data Connections
- Pipeline Concepts
- Indexes
- Workflow Concepts
- Additional Pipeline Operations
