

Delivery Type

- Instructor-Led Training (ILT)
- Virtual Instructor-Led Training (VILT)

Course Length

- 3 days

Course Availability

- Employees
- Customers
- Partners

Suggested Audience

- Administration

Required Knowledge and Skills

- Sever technology and concepts of server, network, and storage in a converged infrastructure environment

Prerequisite Courses

- TXC3391 – Hitachi UCP Converged Infrastructure With UCP Advisor v2.0 Technical Overview

TXI3362 — Managing UCP Converged Infrastructure Solution with Hitachi UCP Advisor v3.5**Course Description**

This course provides instruction on how to perform administration, inventory, provisioning, and lifecycle management tasks using Hitachi Unified Compute Platform (UCP) Advisor with the UCP Converged Infrastructure solution. The course teaches you how to perform UCP Advisor administration tasks. It also covers support solutions for UCP Advisor and provides an overview of VMware vSAN storage technology.

Throughout this course, you will complete numerous hands-on lab activities designed to build the skills necessary to configure the key software products presented in the course.

Course Objectives

Upon completion of this course, you should be able to:

- Describe an overview of Hitachi UCP Converged Infrastructure solutions
- Describe an overview of UCP Advisor v3.5
- Perform UCP Advisor administration tasks
- Perform compute node management tasks
- Perform ethernet switch management tasks
- Perform fiber channel switch management tasks
- Perform storage arrays management task
- Describe how to provision non-VMware operating systems
- Perform REST API and CLI operations against UCP Advisor
- Perform troubleshooting tasks in UCP Advisor

Course Outline**Content Modules**

- Converged Infrastructure Solution v3.x and UCP Advisor Overview
- Access and Navigation of UCP Advisor
- Compute Node Management
- Ethernet Network Management
- Fibre Channel Network Management
- Storage Management

COURSE DESCRIPTION

Join the Conversation

Ask questions and connect with other Hitachi Vantara customers, partners and employees within the Hitachi Vantara Community.

- Bare Metal Provisioning
- REST API and CLI for UCP Advisor
- Software Integrations With UCP Advisor
- Troubleshooting and Maintenance With UCP
- Recap and Next Steps

Learning Activities — Labs

- Adminstering UCP Advisor
- Managing Compute Nodes
- Managing Ethernet Switches
- Managing Fibre channel Switches
- Managing Storage Resources
- Perform REST API Operations
- Troubleshooting
